

PM Fair 2017- August update

What is the first thing you do when you arrive at a congress?

A professional congress such as **PM Fair** is primarily about learning and exchanging experiences but it is also about **networking** - meeting new people who have common **interests**. Usually, when we are in large gatherings, we stay with the people we know. At **PM Fair 2017**, our goal is to help you to grow your social network. Instead of feeling isolated or socializing with same old friends, we want you to meet new people. To facilitate your networking we invite you to install **Eventory app** on your smart phones before you arrive at **PM Fair 2017**.

Once installed, just open the **Eventory app**, search for **PM Fair 2017** and go to the **Attendees** tab. You will see the list of all attendees along with their information.

Browse through the list, find someone interesting, select the name, introduce yourself and send him/her a message. You will probably get a reply within a few seconds and you can meet shortly after at our **PM Fair Market place**.

You may also send a message to a speaker to discuss about his/her topic or to meet the speaker.

Eventory app will also help you to easily plan your day schedule or to find your way around. To select the presentations/workshops that you would like to attend, go to the **Schedule** tab and see the upcoming sessions. Read the description, get more information about the speakers and make your final decision.

If you don't know where the room for your session is located, just check the **Floor Plan** link in the app.

After attending the session, you can provide your valuable **feedback**. Did you enjoy the session? Was it interesting? Just open the app and **evaluate** the session that you have attended.

Are you active on **Twitter**? Tweet using **#pmfair** hashtag and your tweet will show on the **Social** tab of the app automatically and everyone will see it.

Don't forget to use the app to meet more interesting people during the coffee breaks and after congress meet up.

Eventory app is the official mobile app for **PM Fair 2017**. You can install it now using one of the following links:
